

Laser: the Elixir of New Life for Your Skin

The CO₂ laser is considered the most effective weapon for combating wrinkles, aging and many other skin imperfections.

Skin Resurfacing treatments restore tone and glow to your face through the formation of a completely new skin layer.

By employing Deka's technology, your physician can provide you with the perfect solution for dermatological treatment, always performed in total safety, without any undesirable side effects and with drastically reduced recovery times.

Give your skin a new youthful glow

SKIN RESURFACING: THE PERFECT TREATMENT FOR REMOVING THE UNDESIRABLE SIGNS OF AGE

This is one of the most successful techniques for treating every type of wrinkle. The fractioned technology now makes it possible to perform any treatment on the face and neck in total safety, even in such delicate areas as the eyelids.

You can now reduce the furrows of deep wrinkles and eliminate the shallower ones. With the correct stimulation, the derma can produce new cells and new collagen, giving your skin a smoother, younger appearance.

Your smile, your eyes and your expression will acquire a natural new glow.

SMARTXIDE DOT REMOVES IMPERFECTIONS IN TOTAL SAFETY AND WITHOUT SCALPELS

Deka's major technological breakthroughs mean that you can now successfully address all forms of treatment in the dermatological and aesthetic fields. The application is precise and selective, ideal for superficial removal of all skin lesions, even the most delicate.

Your specialist can now permanently resolve even the most complex situations, such as scars, superficial pigmentation and deep wrinkles. After identifying the correct treatment for your skin, the physician can remove any type of imperfection, at the same time protecting the skin, avoiding scalpel-related side effects and reducing recovery time.

The Beneficial Effects of the Treatments.

The laser induces a re-epithelisation process in the treated area and stimulates the dermis to produce new collagen. After treatment, your skin will be more elastic and smoother, without any scars or alterations to your natural facial expression.

FRACTIONAL OR TRADITIONAL: CHOOSE THE BEST SOLUTION FOR YOUR REJUVENATION

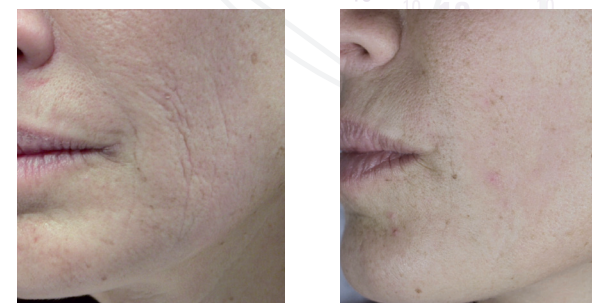

Select the perfect solution for rejuvenating your skin:

Fractional Skin Resurfacing

Repeated, shallower laser action makes it possible to achieve excellent results in only a few sessions. Since the healthy surrounding tissues are protected, post-op recovery is shorter, simpler and with less risk of complications.

Traditional Skin Resurfacing

The laser emission is evenly distributed deep down in the tissue. The treatment usually requires only one session followed by careful, long-term post-treatment management.
